EDUCATION

University of Florida

August 2024- May 2028

B.S Microbiology & Cell Science, College of Liberal Arts and Sciences

Relevant Coursework: Innovation Project Management • Python Programming for Biology • Biochemistry & Molecular Biology • Statistics

LEADERSHIP

Child Life TV YouTube Chair | UF Footprints Buddy & Support

May 2026- Present

- Manage the UF Footprints YouTube channel, coordinating video organization, uploads, and content scheduling.
- Create and manage volunteer filming schedules, coordinating availability and assignments across 60 volunteers.
- Coordinate filming logistics and communicate schedules and expectations to volunteers to maintain consistent content production.

Director of Global Health | UF American Medical Student Association

August 2025- August 2026

- Coordinated guest speakers, panels, and workshops, managing event logistics and communication with speakers and student participants.
- Collaborated with organization leadership to plan educational programming and increase student engagement

Organization Advancement Committee | UF Footprints Buddy & Support

August 2025- August 2026

- Collaborated with committee members to identify organizational needs and develop initiatives that improve support for patients, families, and hospital staff.
- Helped plan and execute Pediatric Illness Forum (PIF), coordinating pediatric specialist and patient-care professionals to provide students with diverse perspectives on pediatric illness.

SCIENTIFIC & TECHNICAL EXPERIENCE

Microbiology Lab Technician | University of Florida Microbiology Department

May 2026- Present

- Support laboratory operations across 30+ microbiology classes, managing inventory, equipment, materials, and experiment preparation.
- Prepare microbial cultures and experimental materials while maintaining organized workflows and troubleshooting laboratory issues.

Student Researcher | Yousong Ding Lab, UF College of Pharmacy

Summer 2023

- Investigated cyanobacterial enzyme pathways through molecular cloning, mutagenesis, protein expression, and purification.
- Executed and troubleshot multi-step molecular biology workflows using PCR, Gibson Assembly, bacterial transformation, Ni-NTA chromatography, and SDS-PAGE.

SKILLS

CORE COMPETENCIES

Project Management • Project Scoping • Stakeholder Communication • Cross-Functional Collaboration • Risk Mitigation • Task Prioritization • Event & Project Coordination • Resource Management • Problem Solving

TECHNICAL SKILLS

PCR • Gibson Assembly • Molecular Cloning • Bacterial Transformation • Protein Expression & Purification • SDS-PAGE • Ni-NTA Affinity Chromatography • Microbial Culture
